

HAS Statistical Report

A guide to navigate filters and features of this web based report.

By Richard Martinez

March 2019

Page navigation

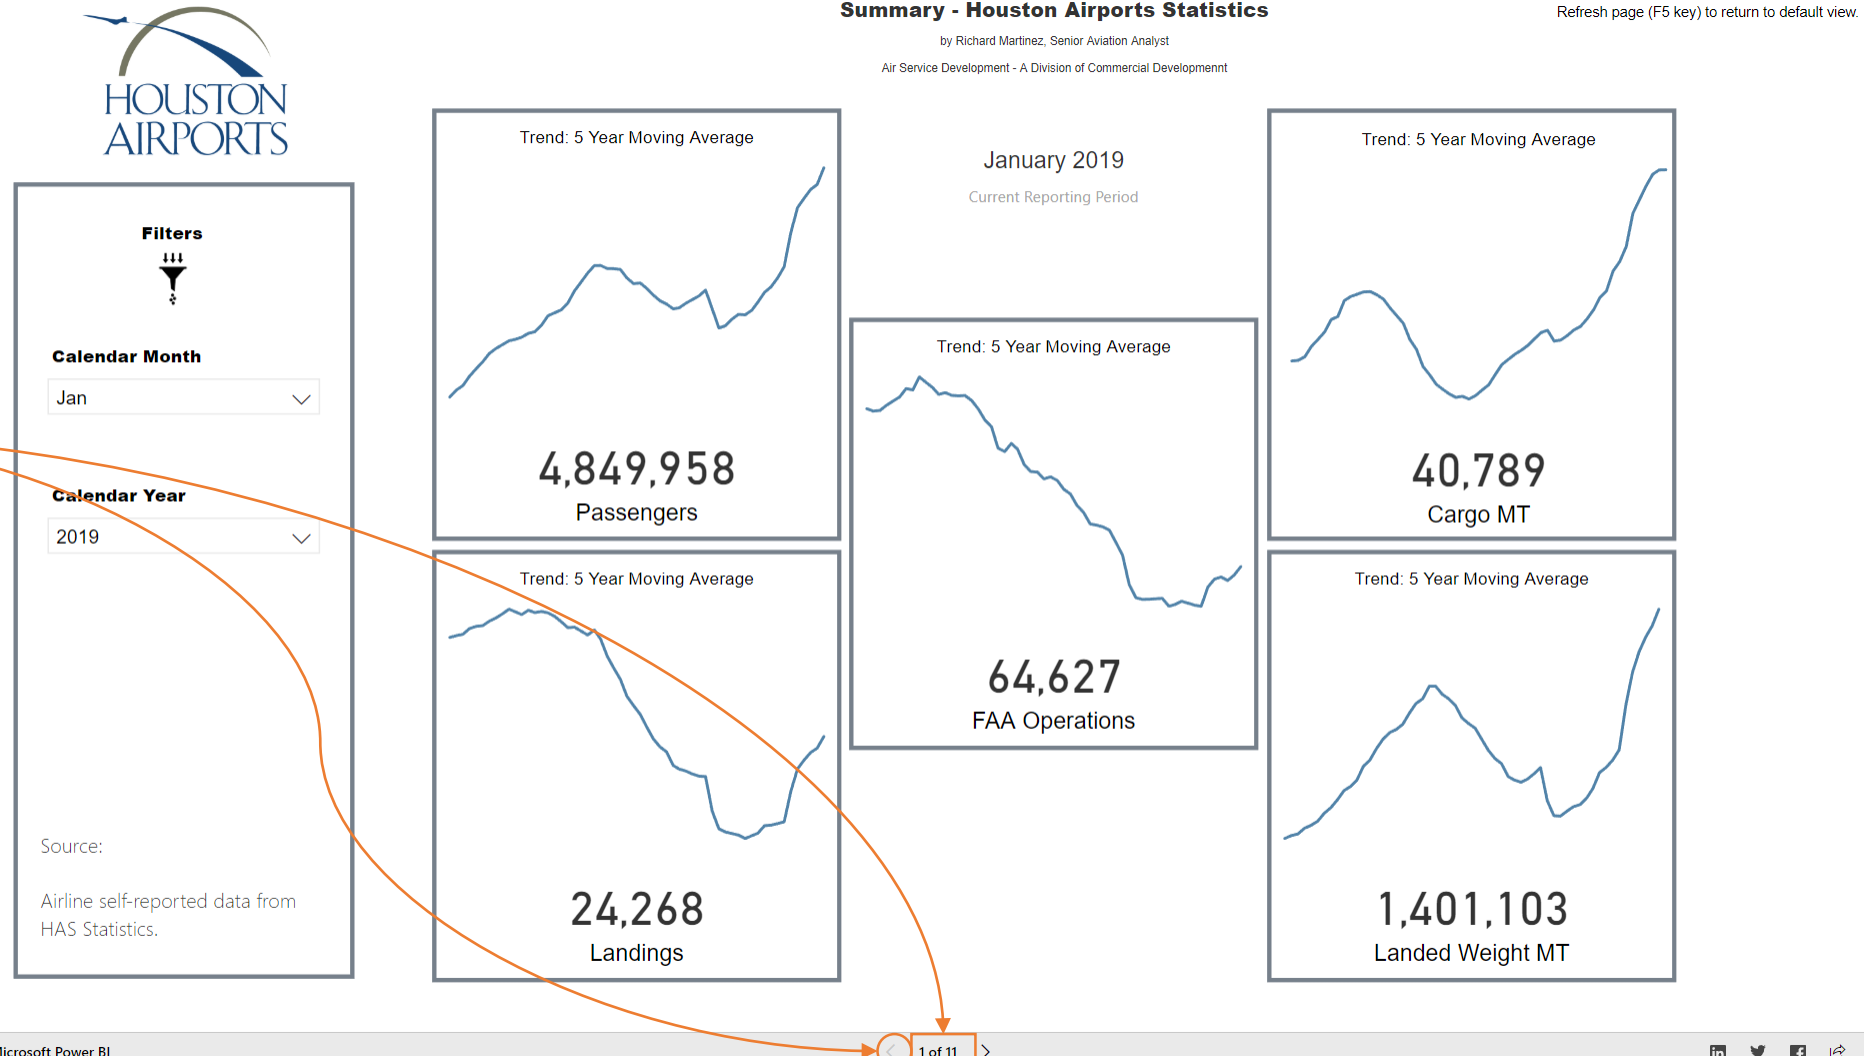

Start Here

FAIL SAFE: if you're lost, confused, or stuck press function key 5 (F5) on your keyboard or refresh your web browser to return to the report's default settings.

There are 2 methods to navigate through the report.

- a) Select the page ranges between the arrows
 - a) A pop up menu appears with all pages in the report.
 - b) Scroll up or down to find the page you want.
 - c) Select the page.
 - d) To cancel, select page range again.

- b) Select the left or right arrows to navigate to the previous or next page.

Filtering basics

A down arrow indicates the filter is a drop down menu.

- Choose the option you want to see.
- If desired, hold the control key to selection more than one option.
- Mouse click outside the filter box to hide the dropdown menu.

Hover over the dropdown menu.

- Select the eraser icon to remove all filters for that selection.
- For example, if you select the eraser here, it will show you aggregated data for all selections.

Check boxes indicate the filters are a list.

- Select the option you want to see.
- Hold the control key to selection more than one option.

Total Passengers Year Over Year % Δ			
Airport	Passengers	Passengers LY	Passengers YOY % Δ
HOU	1,306,360	1,074,389	21.6 %
Domestic	1,223,868	993,751	23.2 %
Arrival	604,055	497,612	21.4 %
Departure	619,813	496,139	24.9 %
International	82,492	80,638	2.3 %
Arrival	41,488	41,115	0.9 %
Departure	41,004	39,523	3.7 %
IAH	3,543,598	3,244,445	9.2 %
Domestic	2,625,040	2,370,248	10.7 %
Arrival	1,311,018	1,184,131	10.7 %
Departure	1,314,022	1,186,117	10.8 %
International	918,558	874,197	5.1 %
Arrival	478,169	454,342	5.2 %
Departure	440,389	419,855	4.9 %
Total	4,849,958	4,318,834	12.3 %

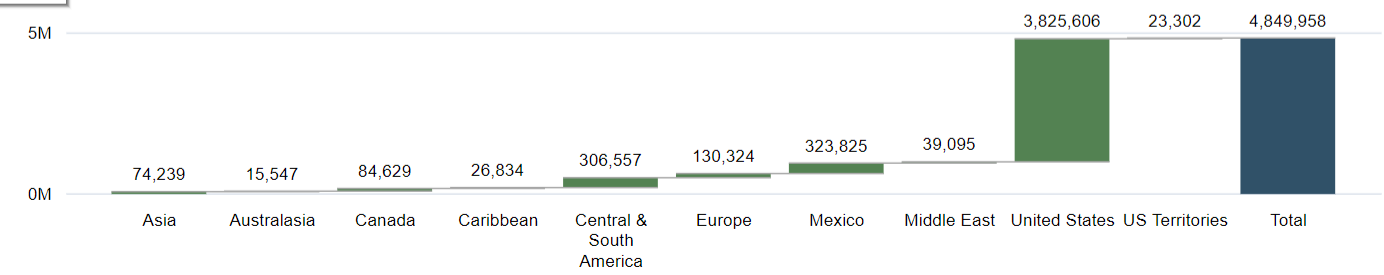

Chart filters

Table filtering features only affect the table your analyzing. Features from left to right:

- a) Drill up (dimmed when at highest hierarchy)
- b) Drill mode icon glow a dark color when on.
 - a) Drills down details for table feature you select
- c) Go to next level in hierarchy.
- d) Expand all down to one level in hierarchy.
- e) Focus mode.
 - a) This mode expands and isolates the chart or table to take up the entire screen.

Chart behavior when you do not use the chart or table filtering features listed above:

Select a chart object or cell in a table.

- a) Here I selected HOU
 - a) Chart data not related to HOU is dimmed.
 - b) Table is update with only HOU data.

Synchronized filters

- Filters are synchronized across all pages.
- When you select a filter on one page, the report automatically selects the same filter across all pages that share that filter.
 - The entire report correctly recalculates all data aggregations in seconds and displays the results using the newly selected filter for all pages!
 - Simply navigate to the desired page without having to 're-select' the same filter for each page.
